SCHOOL MISSION STATEMENT

The Echo Valley staff provide a safe and nurturing environment that promotes high academic and social standards. The school uses standards-based curriculum in the areas of language, arts, mathematics, social studies, and science. An Instructional Leadership Team meets twice monthly to discuss and generate strategies to improve student engagement and achievement. Grade level teams collaborate in the analysis of assessment data, plan lessons, and discuss effective, research-based methodologies in order to differentiate instruction for all students. Our goal is to promote the 5 C's in all aspects of learning - communication, collaboration, creativity, critical thinking and citizenship.

ESTIMATED CLASSROOM UTILIZATION FOR 2018-19
